Keller's Seed Store

Your 1944 Victory Garden

Probably not since the last World War campaign for "Victory Gardens" have we seen such emphasis placed on gardening as we will see this year. Food will win the war we are told and those of us who are in position to do so should plant gardens and field crops to the limit of our ability to cultivate and harvest. We have many letters in our files from satisfied customers telling of their wonderful prize vegetable gardens grown in years past from garden seed purchased from our store. To our old customers we wish to assure you we have been able to assemble our usual stocks of high grade garden and field seed. While there may be shortages in some varieties of vegetable seed before planting season is over, we feel we have adequate stocks to care for the needs of all of our old customers and many new ones will also be served.

Our seed stocks are either grown expressly for us or are secured from the world's best growers. It is our desire at all times to furnish our customers only the best in seed stocks, and especially only those varieties which we have found to be best adapted from our many years of experience and observations in this section. With thousands of square feet available for storage in our warehouses we are able to buy our seeds in large quantities from the best growers. This enables us to keep on hand at all times for our customers the finest grades the market affords. In addition, no expense nor effort has been spared in the securing of seed cleaning and grading equipment to insure our customers that they will receive only seed of highest quality.

ECLIPSE BRAND SEEDS. Eclipse is our general Trade Brand for seeds. When you buy Eclipse seeds you buy the last word in quality. For purity, vitality, and germination, no better seeds can be produced. While soil and weather conditions play a very important part in crop

production, yet the planting seed stocks are equally important. Only the best seed stocks should be considered when placing your orders. When you consider how few seeds are required to plant an acre of ground, the seed cost is very low. When you buy our Eclipse Brand Seeds you are getting only the best. All Eclipse seeds are thoroughly cleaned and carefully graded, then packed in heavy, secure packages for shipment to insure safe arrival in good condition.

GARDEN SEEDS. Our garden seed department offers exceptional inducements to those interested in finest grades of garden seeds for either commercial gardening or resale. Our catalog describes all the best standard varieties and all the new plants which have shown evidence of good adaptability to our climate. We give liberal premiums with all garden seed orders in addition to giving more seed per package than most seed companies.

LIBERAL PREMIUMS. With every order amounting to a dollar or over for vegetable and flower seeds in packets to ounce quantities you may select extra seeds in packets only to the amount of 25 cents on each dollar's worth ordered. This does not apply to quarter pounds, pounds or larger sized seed packages, nor does it apply on special collections, plants or bulbs. To be entitled to these premium seeds your order for packet to ounce quantities must amount to a dollar or more. Then select your premium seeds in packets only. Take full advantage of this extra 25%.

Special to MARKET GARDENERS—

We list and carry all the standard sorts of vegetable seeds that are planted by the most progressive market gardeners in this section of the Southwest and can at all times furnish you with most any varieties you may need. If you will submit us a list of your planting

needs, we will be more than glad to quote you our very best delivered prices on the same.

NON-WARRANTY. Although our seeds are bought only from the most reliable producers, and every precaution humanly possible is taken to give our customers exactly what they want with each order, we absolutely do not give any warranty—either expressed or implied as to description, quality, productiveness, or any other characteristics of any seeds, bulbs, or plants sold by us, nor do we assume any responsibility whatsoever for the crop which may be produced.

QUICK DELIVERY SERVICE. From our location at Shawnee, Oklahoma, with rapid rail and highway connections to all parts of the country, we can make delivery to any part of the Southwest within a few hours after receipt of your order, either by freight, express, truck or parcel post.

GARDEN SEEDS SHORT. Order early for 1944. The surplus in many varieties of garden seeds for a few years past has all been wiped out by poor crops and many total failures of garden seed crops in most garden seed producing areas of the world. The present world war has shut the United States off from such seed producing countries as France, Holland, Belgium, Hungary, Poland, Denmark, Germany and all countries under German control. We are fortunate to have what we consider adequate stocks of high quality garden seeds for our customers but as some items may be sold out before the season is over, we urge that you place your orders early. All prices quoted on field and garden seeds are subject to stocks being unsold and market changes.

Our Terms are Cash F. O. B. Shawnee. We solicit your orders with our promise that we will give you honest goods at honest prices. Be sure and enclose sales tax of 2% of total order if you live in Oklahoma.

KELLER'S ECLIPSE BRAND, HIGH GERMINATING, GARDEN SEED

All Prices in Our List Are Subject To Change Without Notice

Bermuda Onion Plants

Our onion plants are all open field grown on our own irrigated farms in the Famous "WINTER GARDEN BELT" of South Texas. These plants are grown and shipped under our personal supervision and are grown from the finest selected stocks of Teneriffe grown Bermuda Onion Seed. Prospects are good for a good supply of Bermuda Onion Plants.

We grow the famous Crystal White Wax and White or Yellow Bermuda, Sweet Spanish or Valencia onions by the millions and during the planting season receive them fresh daily. Also have a splendid assortment of the Georgia Frost-proof Cabbage Plants, embracing the Early Jersey Wakefield, Early Flat Dutch and Copenhagen Market—these being time-tested varieties, giving best results.

Prices on Frost-Proof Cabbage and Bermuda Onion Plants, Postpaid

	Per 100	300	500	1000
Crystal White Wax.....	\$.30	\$.60	\$.80	\$1.50
White or Yellow Bermuda	.30	.60	.80	1.50
Sweet Spanish or Valencia	.30	.60	.80	1.50
Frost-proof Cabbage45	1.20	1.75	3.00

Ask us for prices on larger quantities. When ready for Sweet Potato slips, write us for prices on your requirements.

Special prices on crate lots by express, F. O. B. SHAWNEE, Oklahoma.

Crystal White Wax—6,000 in crate. Per crate, \$6.00. Express collect.

Yellow Bermuda—6,000 in crate. Per crate, \$6.00. Express collect.

Sweet Spanish or Valencia—6,000 in crate. Per crate, \$6.00. Express collect.

Mary Washington Asparagus Seed

(See Root Crops) pkt. 5c; oz. 15c; ¼ lb. 30c;
1 lb. \$1.00

All postpaid.

Eclipse Brand Beans

Plant from first of April on through until fall, when moisture conditions are favorable. Sow in rows 2½ to 3 feet apart. One quart will sow 200 feet of row.

Bush Beans (Green Pod)

	Pkt.
Full Measure	\$0.10
Tendergreen10
Giant Stringless Greenpod10
Refugee, or 1000-to-110
Early Red Valentine10
Long Yellow Six Weeks10
Burpee's Stringless Green Pod10
Tennessee Green Pod10
1 lb. 40c; 2 lbs. 75c; 5 lbs. \$1.75, postpaid.	

Lima Beans

Lima Beans require a slightly longer time to bear than other beans. Do not plant until the ground is warm and dry and all danger of frost has passed.

	Pkt.
Giant Pole Speckled Lima10
Sieva Pole Lima	\$0.10
Large White Lima Pole10
King of the Garden Lima Pole10
Henderson's Bush Lima10
Burpee's Bush Lima10
Jackson Lima-Bush Beans10
Speckled Lima Pole Beans10
1 lb. 40c; 2 lbs. 75c, postpaid.	

Grow These for Dried Beans

	Pkt.
Red Kidney Beans.....	\$0.10
Pinto Beans—Wyoming10
Navy Beans10
1 lb. 25c; 2 lbs. 45c, postpaid.	

Pole Beans

Pole Beans enjoy a longer bearing period than bush beans and are therefore more productive. They are more sensitive to cold and wet as well as drought and hot winds than the dwarf sorts. You should by all means include a planting of Pole Beans in your garden.

	Pkt.
McCaslin	\$0.10
Speckled Cut Short10
Dutch Case Knife10
Kentucky Wonder10
Kentucky Wonder Wax10
White Seeded Ky. Wonder15

1 lb. 40c; 2 lbs. 75c, postpaid.

Wax, or Yellow Pod

Desired by many on account of the meaty pods that are always brittle. Bush Wax Beans are early and one of the best kinds for home planting as well as market.

	Pkt.
Improved Golden Wax	\$0.10
Improved Prolific Black Wax10
Currie's Rust-Proof Wax10

1 lb. 40c; 2 lbs. 75c, postpaid.

Garden Beets

The best results are obtained on a deep, rich, sandy loam soil. Sow in rows about 18 inches apart and, when the plants are well up, thin to 4 to 6 inches apart in the rows.

Sow outdoors in March and April for early crops and later as desired for late maturity. One ounce will sow 50 feet of drill.

	Pkt.	Oz.	¼ lb.	1 lb.
Early Model	\$0.10	\$0.20	\$0.75	\$2.50

Selected All Seasons10	.45	1.75
Premium Late Flat Dutch10	.45	1.75

Wong Bok and

Pe-Tsai or Chinese Cabbage

A new form of greens imported from the Orient. Heads up like cabbage, but resembles head lettuce. Easy to grow; makes enormous yields. A great greens for poultry also. Price per pkt. 10c; per oz. 40c; ¼ lb. \$1.25.

All postpaid.

Carrots

Carrots are classed as a "health vegetable" and are growing in favor as they can be prepared in so many different ways. They are excellent for salads and soups and are a wonderful dish when prepared alone with a rich cream sauce or combined with English Peas. Sow in rows 16 to 18 inches apart at the rate of one ounce to 100 feet of row or 3 pounds to the acre.

	Pkt.	Oz.	¼ lb.
Chantenay Improved	\$0.10	\$0.30	\$1.00
Danver's Half Long10	.30	1.00
Long Orange10	.30	1.00
Oxheart10	.30	1.00
White Belgian			
Stock Carrot10	.20	.50

All postpaid.

Pop Corn

Nearly all standard sorts do well in this country and we list the following types and call especial attention to the Dynamite or South American Yellow.

Japanese Hulless 1 lb. 25c; 2 lb. 45c, postpaid.

South American Giant Yellow Pop Corn

This splendid new pop corn has a very large bright yellow grain which pops out an enormous kernel. It has a rich flavor and is very tender. On account of extreme size of the popped kernels, this popcorn will produce more bulk after popping than any other variety. Grows well over the Southwest and produces good yields.

Lb. 25c; 2 lbs. 45c, postpaid. Ask for prices on large amounts.

Eclipse Brand Sweet Corn

Stowell's Evergreen Sweet Corn

For early market, plant the garden varieties latter part of March. Sugar Corns should not be planted until April. One gallon to the acre usual amount required.

	Pkt.	½ lb.	1 lb.
Trucker's Favorite	\$0.10	\$0.20	\$0.30
Golden Bantam, early10	.25	.35
Golden Cross Bantam Hybrid15	.30	.55
Country Gentleman10	.25	.35
Stowell's Evergreen10	.25	.35
Adams' Early10	.20	.30

All 5-lb. lots \$1.50, postpaid.

Eclipse Brand Eggplant

Sow in hotbeds and transplant when 2 inches high. Requires warm weather for best growth.

	Pkt.	Oz.	¼ lb.
Improved New York Purple	\$0.05	\$0.40	\$1.35

All postpaid.

Endive

Endive is very rich in mineral salts. It is a salad plant somewhat similar to lettuce and is zestful and makes a beautiful garnish.

	Pkt.	Oz.
Broad-Leaved	\$0.10	\$0.25

All postpaid.

Kohl-Rabi

This vegetable is a cross between cabbage and turnips and combines the delightful flavor of both. Plant in the same manner as you would turnips.

	Pkt.	Oz.
Early White Vienna	\$0.10	\$0.35

All postpaid.

Root Crops

ASPARAGUS

MARY WASHINGTON ROOTS—One-year-old, 50c per dozen.

Eclipse Brand Luscious Watermelons

Southern-Grown-Crisp and Delicious

Eclipse Brand Watermelon seed will satisfy you. Southern-grown and saved from crops grown exclusively for seed. All from selected melons only.

Culture: Plant in hills eight or ten feet apart, dropping ten seeds to the hill; thin out to three plants to the hill, cultivate until the vines cover the ground, and pinch the ends of the early shoots to induce early fruiting.

	Pkt.	Oz.	¼ lb.	1 lb.

Hudson Line Compressed Air Sprayers

We are exclusive agents for this splendid line of Dusters and Sprayers in all sizes and at lowest prices. Ask us for special price lists. W.P.B. has promised us sprayers soon.

ECLIPSE BRAND FIELD SEEDS

Eclipse Brand Alfalfa

U. S. Verified Origin Tagged

Alfalfa is without a doubt the best forage and hay crop for the South and Southwest. This applies to the yield as well as the quality, as it requires only 30 to 40 days of good growing weather between cuttings to produce another crop, and it will certainly stand heavy grazing. In planting, your soil should be clean and well prepared, but firm. Cover the seed about one inch with a harrow. The use of a roller after planting will help firm the soil and insure a better stand. Be sure and inoculate your seed with Nitragin before sowing.

OKLAHOMA ALFALFA

Our ECLIPSE BRAND Oklahoma U. S. verified origin tagged alfalfa represents the very highest purity and germination possible to obtain from the new 1943 crop produced in Oklahoma. We quote you this seed at 43c per lb. or \$42.00 per 100 lbs., sacked, ready for shipment F. O. B. Shawnee, Okla.

Our Fancy Grade of Oklahoma grown alfalfa will show nearly the same purity and germination but will be hardly as smooth bright color as our Eclipse Brand. Fancy Grade Alfalfa at 41c per lb. or \$40.00 per 100 lbs., sacked ready for shipment F. O. B. Shawnee, Okla.

For those not wanting to pay so much money, yet wanting seed that will give good stands, we offer you our Choice Grade of Oklahoma alfalfa seed at 39c per lb. or \$38.00 per 100 lbs. sacked, ready for shipment F. O. B. Shawnee, Okla.

For those wanting to sow alfalfa on good bottom lands infested already with Johnson Grass, we have limited amounts of very high grade Oklahoma alfalfa seed containing some

CYCLONE HAND SEEDERS—Best all round seeder for sowing all farm seed. \$2.75 each, postpaid.

Johnson grass seed on which we can quote special low prices and mail you samples on request. If interested write for samples and prices.

After recleaning our Eclipse Brand Alfalfa seed we have left the light and off colored Alfalfa most of which will grow and it is 95% pure Alfalfa Seed. This seed will meet the needs of many for hog pasture, as well as sowing for hay. We call this our fair Grade and quote following price, Delivered in 100 lb. lots or more \$28.00 per 100 lbs.

"NITRAGIN" INOCULATION AND PHOSPHATES guarantee successful stands of sweet clover and alfalfa as well as all other varieties of clovers. We have found from experience all of our soils are lacking in phosphates and where one or two hundred pounds per acre have been added, our customers have secured wonderful stands and yields from seedings of clovers and alfalfas. Ask for special prices on our Swift's Red Steer 20% Superphosphate. You will find special Nitragin prices elsewhere in our seed list.

Early Yellow Soy Beans

While not a good variety for hay, yet it is one of the very good bean yielding types, making it excellent to graze down by livestock or thresh the beans for sale to oil mills for crushing purposes. It is a good variety to plant in corn when you lay it by. Ask for prices.

Laredo Soy Beans

A new variety of outstanding worth, particularly for making hay. The Laredo makes many slender branches and the plants are leafy, both of which go to make an ideal Bean for hay. It is particularly adapted to sections where wilt and nematode are prevalent, as it has proven resistant to these troubles.

As a soil builder it ranks favorably with other summer legumes. The seeds of the Laredo Bean are very small. One bushel, 60 pounds, will plant about 10 acres in 2½-foot rows, planting three to four seeds to the foot in drills. The proper time to cut for hay is when the Beans are about half matured.

Write for prices.

Virginia Soy Beans

This variety is about 20 days earlier than the Mammoth Yellow variety. The vines have an abundance of growth and it is a heavy yielder of beans. The vines stand about three feet high and are easily cut for hay. We do not hesitate to recommend this bean to our customers. Ask for prices.

Sweet Clover

Yellow Bloom Biennial

In addition to the White Bloom Biennial variety of sweet clover seed, we handle and sell a great deal of the Yellow Bloom Biennial. This clover is fine-stemmed, quite leafy and makes an excellent pasture and at the same time is a soil-building legume, the equal of any of the clovers. This variety does not grow so tall as the White Bloom Biennial. Price, 30c per lb.; 2 lbs. 50c, postpaid. \$19.00 per 100 lbs. F. O. B. Shawnee, Oklahoma.

Sweet Clover

Mellilotus Alba White Blossom

Sweet Clover is also useful for soil improvement as it is very valuable to lime and heavy clay and black soils, not only on account of the heavy stems and foliage, but also because of the thick heavy root system which upon decaying will improve the soil and its drainage. Lands planted in Sweet Clover will increase greatly in value with each year's growth. Planting of

this wonderful Clover is certainly a great investment for land owners.

This can be called the upland alfalfa, as the pasture and hay is in every way its equal. Will grow on the very poorest soil. Is a superior soil builder, adapted to any soil, makes a fine ensilage, and is one of the most popular plants for bees. Sweet Clover honey is the best honey produced, and brings the highest price. Sow 12 to 15 pounds per acre in fall or early spring.

Price, 30c per pound; 2 pounds 50c; postpaid. \$19.00 per 100 lbs. F. O. B. Shawnee, Oklahoma.

Unhulled Sweet Clover

For those wanting to sow very early or in the late winter we have limited stocks of recleaned unhulled Sweet Clover Seed, both white and yellow bloom biennial. Samples and special prices on request.

Crimson Clover

While best results are obtained by sowing this clover in the fall, yet good results may be obtained by sowing on well prepared seed bed about March 15th to April 15th at rate of 15-20 lbs. per acre. Price 20c lb.; 2 lbs. 35c postpaid. 100 lbs. at \$12.00 sacked. F. O. B. Shawnee, Oklahoma.

Korean Lespedeza

You cannot afford not to seed down part of your pasture lands and especially would it pay you to sow Korean Lespedeza in with your oat acreages this spring. By so doing you will have an excellent late summer and early fall pasture after the oat crop has been harvested. As usual there will be some very low priced seed offered that will be heavily infested with noxious weed seeds, so demand the best seed and know what you are getting before you buy. Our seed is State tagged and tested and will please the most critical and at lowest prices possible for such high grade seed. Use Nitragin to inoculate Lespedeza when sowing on new lands where this clover has never been grown. Nitragin inoculation will produce better stands and luxurious growth. Ask us for firm prices when you are ready to buy. Special prices on large amounts. Lb. 30c, postpaid; 2 lbs. 50c, postpaid. \$15.00 per 100 lbs. F. O. B. Shawnee, Oklahoma.

Lespedeza Sericea

This wonderful new introduction from the Orient is a perennial, living indefinitely; more and more shoots coming from the original crown year after year. This is the greatest of soil-building legumes, producing both hay and pasture crops; very drouth-resistant and also will stand the most severe winter weather. 50c lb. postpaid.

Mung Beans

Green Mung Beans do well as a soil building and feed crop to plant on oats, wheat, barley, potato ground after these early crops have been harvested. These beans mature quickly, so they are more certain to produce satisfactory crops when planted late than Soy Beans or Cowpeas. Due to their upright growth they are easily harvested with combine equipment. Be sure and use Nitragin Inoculant for best results. If wanted for hay, you should drill broadcast with grain drill at rate of 20 lbs. per acre. 25c per pound or \$20.00 per 100 lbs. F. O. B. Shawnee, Okla. Special prices on larger amounts.

An exceptionally good hay crop and a wonderful soil improver and very drouth resistant. About 10 pounds will plant an acre. Best results are obtained when planted in 2½ to 3-foot rows, 4 to 5 inches in the drill. For hay purposes we advise planting in April.

Spring Barley

If every upland farmer in the South grew an acreage of Spring Barley there would be many trainloads of feed that is shipped in from the North for feeding, that would have to look for a market in other sections of the country. Planted in February and March, it makes a quick growth and is matured before the summer heat can injure it. It is almost certain that you will harvest a crop if you prepare a seed bed and sow the seed. Divide your corn acreage on upland with Barley.

The new variety of Flynn Spring Barley has shown its adaptation to Oklahoma. This is the stock we are offering at \$1.80 per bu., recleaned, sacked, F. O. B. Shawnee, Okla.

Japanese Buckwheat

A quick growing crop that is grown mostly for bees. It is a splendid poultry feed and with a good growing season will mature a crop in 55 days. Can be planted up to August 1st.

Price: Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25, postpaid.

Winter or Hairy Vetch

In Eastern and Southeastern Oklahoma, as well as over the entire South, the Winter or Hairy Vetch is being used more and more universally as a winter soiling crop. Due to its wonderful ability to build up soils as well as furnish excellent pasturage, every farm should have some acreage every year of winter Vetch. We mention winter Vetch this spring so that you may have it in mind for your next fall planting program. Ask for prices.

ST. CHARLES WHITE—This variety is very popular in Oklahoma and is sometimes known as the red cob white corn, maturing in from 90 to 100 days according to the weather conditions. Our selection of seed is very good this season. If you want a larger ear than the Silvermine or Early Yellow Dent varieties, try the St. Charles White this year. It is especially adapted to rich heavy soils and rarely ever fails to make a crop. One pound 20c; two pounds 35c; postpaid. Not prepaid, one peck \$1.00; one bushel \$3.50.

Mexican June Corn

We carry in stock most of the planting season the Red Mexican June and the White Mexican June seed corn. Either of these varieties are well adapted all over the Southwest and the past season especially most growers who planted one or both of these drouth-resisting varieties came through the season with some corn to feed or sell for seed. The Mexican June varieties do especially well if planted late and very often there are many spots of ground that cannot be planted early but can be worked up and planted to the Mexican June corn varieties late in June is necessary.

1 lb. 20c; 2 lbs. 35c, postpaid. Not prepaid, Peck \$1.00; one bushel \$3.50.

Ferguson's or Southwest Yellow Dent

This splendid type of Yellow corn was developed in the Southwest and is generally known as a crib filler. It does best on the bottom lands and while it is a late type of corn, yet it seems to resist drouth and if any corn is made, the Southwest Yellow Dent will make it. A very large broad kernel and a good sized ear makes this corn popular with all feeders of livestock. Our seed stocks are selected from the best growers in this section. 1 lb. 20c; 2 lbs. 35c; postpaid. Not prepaid, peck \$1.00; bushel \$3.50.

Indian Squaw Corn

We have special strain of deep red long ear type of this splendid Squaw Corn. This corn is sure crop maker and will make excellent roasting ears as well as an abundance of feed on account of all sucker stalks making ears of corn. If you want early corn to feed, try some of this well known and time tried Squaw Corn. 20c per lb.; 35c for 2 lbs.; 75c for 5 lbs., all postpaid.

Yellow and White Surecropper

These varieties are early maturing, drouth-resisting and are growing in popularity every year. It can be planted in summer on stubble ground and will produce a much larger tonnage than June Corn. Ears are large, corn white and run 14 or more rows to the ear. 1 lb. 20c; 2 lbs. 35c, postpaid. Not prepaid, 85c per peck; per bushel \$3.50.

Hickory King

White corn with smallest cob. Kernel will cover the end of cob. Largely planted for roasting ears, hominy and meal use. Lb. 25c; 2 lbs. 40c, postpaid.

Hybrid Corn

Three important benefits come from the superior size of the lowwealth Hybrid corn roots. First, they reach moisture during drouth that ordinary corn never touches. Second, they provide the anchor that makes lowwealth the most wind resistant corn grown. Third, they are a factory which can bring more nutrients to the surface of the ground than ordinary corn, and make higher yields. lowwealth Hybrid corn is a Yellow variety of corn and will out-yield any of our regular types of native corn. Sold only in one bu. sealed bags. Only a limited supply of this special bred seed corn is available. In broken lots where only a few pounds are wanted, we quote same at 25c per lb. postpaid. 2 lbs. for 45c postpaid. \$9.25 per bushel.

Treat your seed corn with Semesan Jr. to insure stands and freedom from diseases.

1½ oz. packet 15c. Treats one bu. One Pound Can Semesan Jr. for 75c F. O. B. Shawnee, Okla.

You can treat your seed corn, so that your per acre cost will only run about 2½c per acre.

Semesan Bel treatment for seed potatoes cost the same per can as the Semesan Jr.

CROW-FEZ—A Crow Repellent

The economical crow repellent for treating seed corn. Crow Fez protects planted corn from attacks of crows, blackbirds, larks and rodents. 1 Bu. Size 60c; 2 Bu. Size \$1.00, all F. O. B. Shawnee, Oklahoma.

Oklahoma Certified Seed Corn

Special offering of Seed Corn grown by a member of Oklahoma Crop Improvement Association.

OKLAHOMA SILVERMINE—This is strictly an Oklahoma type of Silvermine developed over period of many years and produced by a member of Oklahoma Crop Improvement Association and grown in Pottawatomie County. We offer this seed in sealed bags with tag certificate attached and quote you the same at \$4.00 per bu. sacked, ready for shipment F. O. B. Shawnee, Okla.

REID'S YELLOW DENT — This special strain of Reid's Yellow Dent is grown in Pottawatomie County by a member of Oklahoma Crop Improvement Association and we are proud to offer such excellent seed stocks to our customers. Each bag carries sealed tag certificate attached so you are assured of getting just what you buy. Price \$4.00 per bu. sacked, sealed, F. O. B. Shawnee, Okla.

Cow Peas

A wonderful crop to produce and one of the highest protein feeds grown. They are a great soil builder, being a legume, gathering from the air a nitrogen so essential to the fertility of the soil. You can get the benefit of fertilization without turning the vines under, thereby getting the value of the hay and pea crop, and also building the land. Plant 10 to 12 pounds in rows, or ½ to 1 bushel broadcast. We will have in stock Whipporwills, Red Rippers, New Eras, Clays, Yellow Crowders, White Crowders, Black-Eyed Peas and Lady Peas. Ask for prices.

Chinese Red Cowpeas

A new variety for Oklahoma but it has proven well adapted and by many is considered the best all round cowpea for the southwest. It grows upright, matures early, produces large crop of matured peas and can be harvested by combines before any other cowpeas so far grown in this area. Price: 1b. 20c postpaid, \$10.00 per 100 lbs. F. O. B. Shawnee, Okla.

Grohoma Seed

Our seed from selected heads, thoroughly matured and cleaned and tested, is the best seed produced. Two pounds will plant an acre in three-foot rows, though some claim that a pound is sufficient. We quote this seed at 1 lb. 20c; 2 lbs. 25c; 5 lbs. 65c. Parcel post prepaid up to 5th zone. Ask for special prices on large amounts.

Sugar and Stock Beets

High in sugar content makes Beets a fine winter green feed for the poultry, cows and hogs. They make a rich feed, relished by stock and poultry and easy to keep. Plant for best results in 18-inch rows and thin to ten inches in the row. Store in basement or hill out in the open. About one-fourth the daily ration can be fed.

Prices on Sugar and Stock Beets

All postpaid.

Big German Millet

Millet will make a hay crop in 60 days time or less and farmers and dairymen are growing more Millet hay every year on account of its quick maturity and splendid quality as a milk producing hay. In some sections good crops of Millet seed have been produced and we have secured supplies that should enable us to take care of our trade in a satisfactory manner. Market prices are not as yet established but we are quoting prices in small lots only. If you want larger amounts, we will be very glad to quote special prices to you and send you sample of the quality we are offering. Prices: 1 lb. 20c; 3 lbs. 50c, postpaid. \$7.50 per 100 lb. F. O. B. Shawnee, Okla.

Darso

Darso is one of the sweet grain sorghums, the stalks of which are rich in sugar content, thereby making an excellent feed. Being a great drouth resister and also heavy yielder of grain, we assure you that it has a place on your farm. 1 lb. 15c; 2 lbs. 25c; 5 lbs. 60c, postpaid. \$7.00 per 100 lb. F. O. B. Shawnee, Okla.

Cane Seed for Forage

The early freeze and also general lateness of the cane and other grain sorghum crops has developed another shortage of high grade planting seed stocks that will be available for the trade this spring. Special prices will be quoted on request, as at the time of printing our price list, we do not know the possible market prices that prevail in the spring. We will have the varieties of Early Orange, Kansas Red Orange, Red Top Cane and Sourless or African Millet. Small amounts quoted as follows: 1 lb. 15c; 2 lbs. 25c; 5 lbs. 60c, postpaid. \$7.00 per 100 lb. F. O. B. Shawnee, Okla.

Honey Drip Cane

Sorghum making on the farm has been the most profitable money crop that we know of. Thousands of gallons have been sold for good prices.

This cane was thoroughly matured when headed, and the seed is the best we have ever handled. It is thoroughly rogued and inspected.

Price: Lb. 20c; 2 lbs. 35c, postpaid. Ask for samples and prices on large lots.

Tennessee Red Peanuts & Spanish Peanuts

Peanuts are a good crop on the sandy soils of this section and we always have select seed stocks of the varieties that succeed best in the Southwest. The Tennessee Red Peanuts 30c lb.; 2 lbs. 50c, postpaid. Spanish Peanuts, 25c lb.; 2 lbs. 45c, postpaid.

Kanota or Fulghum Oats

These hardy type oats have shown their ability to outyield most any variety of oats grown in the Southwest. They will mature a week to ten days earlier than the Texas Red Oats and, on this account alone, the crop sometimes will be made and out of the way of hot weather. On account of the smut damage that is prevalent in oats in this country we urge that you treat all seed stocks with "Ceresan" at least ten days before sowing. \$1.35 bu. F. O. B. Shawnee, Okla.

Ceresan and Semesan Jr.

It is proven now that you will get better stands and produce more grain if you will treat your seed oats with the new Improved CERESAN and treat your seed corn with Semesan Jr. We carry the Semesan Bel for treatment of seed potatoes also. Special circular and price lists mailed on request.

4 oz. Can, 30c. Five Pound Can New Improved Ceresan for \$3.40. One Pound Can Ceresan for 80c. F. O. B. Shawnee, Okla. 1 lb. will treat 32 bu.

Texas Red Rustproof Oats

This time tried variety of rustproof oats will always give high yields under the average soil and weather conditions. Our stocks are grown from only the best certified seed, so you are assured of securing good quality and pure seed stocks from us. Treat your seed stocks with "CERESAN" and increase your yields by preventing smut. \$1.35 Bu. F. O. B. Shawnee, Okla.

Arizona Hegari

Registered Arizona grown Hegari as produced by members of Arizona Crop Improvement Association is beyond doubt the purest seed stocks obtainable. We offer only this extra fancy and well bred type of Registered Hegari, unless you expressly order Texas grown stocks, which are of course produced only in the regular commercial way. We have very fancy stocks of Texas grown Hegari for our trade. Registered Arizona Hegari.

1 lb. 15c; 2 lbs. 25c; 5 lbs. 60c, postpaid. \$6.00 per 100 lbs. F. O. B. Shawnee, Okla.

Dwarf White Black Hull Kaffircorn

For some years our type of Dwarf White Blackhull Kaffircorn has shown its superiority over most all other types of kaffir in uniformity of growth, maturity, size of heads and yields of grain under the most trying weather conditions. Renew your stock seed this year by planting an acreage of our pure bred, high grade Dwarf White Blackhull Kaffircorn seed.

Lb. 15c; 2 lbs. 25c; 5 lbs. 60c, postpaid; \$4.50 per 100 lbs. F. O. B. Shawnee, Okla.

ARIZONA GROWN

Double Dwarf Milo Maize

This straight necked Milo maize is proving very popular where grain alone is wanted. The stalks are very low, head is erect, making it easy to harvest with a header outfit. Heads are quite large, producing heavy grain yields and making good crops during years of drouth. Lb. 15c; 2 lbs. 25c; 5 lbs. 60c, postpaid. \$6.00 per 100 lbs. F. O. B. Shawnee, Okla.

Martin's Combine Milo Maize

If you want only the grain crop, Milo maize produces under the most trying conditions. It is a deep rooting hardy grain and grown in the arid sections more than any other grain crop. The forage is not a good feed. Stock will eat the leaves but not the stalks. Three to four weeks earlier than kaffircorn.

Price: Lb. 15c; 2 lbs. 25c; 5 lbs. 60c, postpaid. \$4.50 per 100 lbs. F. O. B. Shawnee, Okla.

Atlas Sorgo

Heads of this wonderful grain and forage crop have white grain like Hegari and produce excellent yields of threshed grain. Atlas Sorgo grows quite tall and on account of its extra heavy sugar content makes splendid silage. Try an acreage this year and you will agree it is a worthwhile crop for grain, forage or silage. Our seed stocks are genuine Affidavit grown Kansas origin seed. Price: 15c per lb.; 2 lbs. 25c; 5 lbs. 60c, postpaid. \$7.00 per 100 lbs. F. O. B. Shawnee, Okla.

Feterita

In many cases where a very quick maturing grain crop is needed and you do not care for the forage or roughness as a feed, we suggest that you use Feterita. Feterita makes a large white head of splendid grain that is relished by all live stock and fowls. Our feterita seed stocks are grown in Arizona by certified growers who are specializing in forage crop seed production as members of the Arizona Crop Improvement Association. You are getting only the best when you order FETERITA SEED from us. 1 lb. 20c; 2 lbs. 35c; 5 lbs. 70c, postpaid. Write for prices on larger amounts.

Dwarf Essex Rape Seed

Holland grown Rape produces fine pasture for hogs, sheep and poultry. It can be planted early and will last until late frost. One pound 35c; 2 lbs. for 60c, postpaid. Ask for prices in large quantities.

Sunflower Seed

MAMMOTH RUSSIAN grown for shade and feed. Will produce 30 to 40 bushels to the acre. Is an excellent feed for poultry. Can be planted as late as July 15th and mature a crop.

Price: Pkt. 10c; lb. 50c; 2 lbs. 90c, postpaid.

Other Field Seed Items

We sell pure strains of Wheat, Rye, Winter Barley, Hard and Soft smooth head Wheat, Spring and Winter Rye, and Winter Turf Oats. All carefully selected and recleaned at market prices.

Certified

Stoneville 2B Cotton Seed

Mississippi and Arkansas Grown

This splendid new cotton developed in Mississippi has shown itself to be well adapted here in Oklahoma. It is making high yields per acre, long and hard staple, bringing highest market price. In a county wide contest this year the Stoneville 2B cotton led by making a high yield of 2 bales of lint cotton on one acre. This seed has been reginned and treated with ceresan dust treatment. \$3.00 per Bu. F. O. B. Shawnee, Okla.

Oklahoma Certified

Stoneville 2B Cotton Seed

As result of the fine showing of the foundation Stoneville 2B Cotton Seed in central and eastern Oklahoma, the Oklahoma Crop Improvement Association has certified a number

of the best crops of its grower members. As long as stocks are available. These seed are from crops making per acre yields of one, one and half up to two bales of lint cotton per acre and making the longest average lint of any good staple cotton ever grown here. Some bales graded 1 5/32 inch staple in the government loan and nothing below one inch. \$2.50 per Bu. F. O. B. Shawnee, Okla.

Eclipse Brand Grasses for Better Pastures

We carry in stock the grass seeds that are more commonly used in the South. All new crop recleaned seed. English Blue Grass, Kentucky Blue Grass, Rye Grass, Red Top, Timothy, Orchard Grass, Bermuda Grass.

Prices: English Blue and Kentucky Blue, 45c per lb.; 2 lbs. 80c. Red Top 30c lb.; 5 lbs. \$1.35. Reed Canary Grass @ 50c per lb.; 2 lbs. 90c, all postpaid. Ask for prices on larger amounts.

Sudan Grass

There is no more dependable grass grown for both pasture and hay. Will grow on the poorest soil, and produce an abundance of feed under the most unfavorable climatic conditions. Its feeding value is acknowledged, and the tonnage secured makes it a valuable crop. Sow 30 to 40 pounds to the acre on heavy soils, and 20 to 25 pounds on light soils. Always glad to mail you samples of seed free from Johnson Grass or weed seeds of any kind. No grass stands like sudan. We have counted more than two hundred stalks from a single seed. It is fine and juicy when broadcast, but can be planted in rows and cultivated if desired, making a better yield but the hay is not as fine, and will not be eaten as well by stock. 15c lb. or \$13.50 per 100 lbs. F. O. B. Shawnee, Okla.

Bermuda Grass

Each year finds an increasing demand for Bermuda Grass Seed. Folks have found that good stands are possible when fields are carefully prepared and sown with our new crop Arizona grown Eclipse Brand quality of high germinating Bermuda Grass seed. Price: \$1.00 lb., postpaid. Special prices on larger amounts.

Lawn Grass

We have made a study of Lawn Grasses and the seed adapted to the Southland. If you will advise us the character of the soil you wish to make into a lawn, whether shady or in the open, sandy or heavy soil, we can tell you what is best to plant. Our lawn mixture is made from the highest grade seeds, and are free from weed seed. Sow 1 pound on 100 square feet of ground.

Price: Lb. 50c; 2 lbs. 95c, postpaid.

Peony Bulbs

Fine, large roots, several eyes to each one.
Red color @45c each
White color @35c each
Pink color @40c each

All postpaid.

Milk and Wine Lily Bulbs

Extra fancy, large flower; prolific on stems—pure white with pink throat, at 25c each, postpaid.

Germaco

'TWIST-EMS'

The New Handy Plant-Tie

'Twist-ems' are dark green strong tapes with wire reinforcing that make perfect plant ties. For plants, vines and shrubs and arranging flowers. Box of 125, 8-inch size, 25c; Box of 250, 4-inch size, 25.

JOS. A. WALKER & CO.

Box 666

ADA, OKLAHOMA

12-8-43

Dear Mr. Keller—

We are in receipt of your suggestion in Corn seed which we read in the American Corn Grower! Will you kindly send enough "Iowearth 29A" to plant 30 acres and enough "Iowearth TX1" to plant 30 acres. You didn't price this seed to me, but anything you have ever done for us has been priced right and even better in many instances, than we expect.

Incidentally, at this time of year, a great many Merchants get out letters etc., thanking their patrons for their patronage. We would throw this in reverse and with all our hearts, thank our Merchant Keller, for the perfect account! Our merchandize has come in full weight, priced fairly, delivered promptly and the advice sound! Thank you, Merchant Keller at this, the close of 15th year of experience with the Keller Seed Store!

Sincerely Yours,

Joseph A. Walker

Eclipse Brand Flower Seed

What is there about the home that is more satisfactory than the flower garden? How easy it is to plant and grow them from the time we sow the seed to the time the plant produces the flower. We watch its development with increasing interest, and when we finally see the fruits of our labor we are indeed thankful that so little time and effort have accomplished such wonderful results. Growing flowers from seed has grown by leaps and bounds in the

past years, and the demand for the old-fashioned flower as well as the improved and new varieties is constantly increasing. Health and cheerfulness are the result of flower culture. Our flower seed comes from the most reliable growers in this and foreign countries where the varieties mature to the best possible development. We know where to buy the best, and only the highest quality is offered to our customers. Much of your time is spent about the house. Why not add to its comfort by having a beautiful flower garden?

Flower Seeds put up in 10c packets. Special prices in ounce lots.

Keller's Eclipse Brand Bulbs, Plants and Roots

For the person desiring the best to be had in bulbs, plants and roots, we have had the following stocks grown especially for us. These listings are field-grown under expert supervision and on the finest soil to be found in Central Oklahoma. Your money back if not pleased with any selection you make from this list. Special prices on lots of 100.

LIBERAL PREMIUMS. With every order amounting to a dollar or over for vegetable and flower seeds in packets to ounce quantities you may select extra seeds in packets only to the amount of 25 cents on each dollar's worth ordered. This does not apply to quarter pounds, pounds or larger sized seed packages, nor does it apply on special collections, plants or bulbs. To be entitled to these premium seeds your order for packet to ounce quantities must amount to a dollar or more. Then select your premium seeds in packets only. Take full advantage of this extra 25%.

NUVIM VITAMIN B₁

For Garden and House Plants

Stabilized Tablets

For real success in gardening, indoors and outdoors, be sure your soil is well supplied with Vitamin B₁. Most plants need this essential growth factor, so important to the health and vigor of garden and house plants, roses, shrubs, trees and lawns.

Nu-Vim B₁ supplies pure Vitamin B₁ in easy-to-use tablet form. No basic solutions or tedious measuring necessary. Simply dissolve in water, 1 tablet to the gallon, and apply with a sprinkling can. This method assures an accurate and uniform solution, so hard to obtain with applying devices. Complete directions give new facts on how to get results with Vitamin B₁.

Forget Lady Luck . . . Use VIGORO and Be Sure!

The seed you use, the time you plant, and the method of planting you follow are all very important in achieving the beautiful garden you desire. Use our high test seeds and plant them right . . . but don't stop there!

Make sure that the young plants will find ample nourishment when they develop feeding roots.

Scientists have shown that all plants require 11 different food elements from the soil if they are to have normal growth and development. That's why we recommend VIGORO for everything you grow. Vigoro, the complete, balanced plant food made by Swift, contains every one of these 11 needed elements in proper proportion.

Vigoro is clean, sanitary, and odorless . . . and it's the most economical plant food you can buy! Use it at the rate of 4 pounds per 100 square feet of lawn or garden area.

100 lb. bag \$4.00, 50 lb. bag \$2.50, 25 lb. bag \$1.50, 10 lb. pkg. 85c, 5 lb. pkg. 45c, 1 lb. pkg. 10c. F. O. B. Shawnee, Oklahoma.

Victory Garden Vigoro for food production: 100 lb. bag \$3.70, 50 lb. bag \$2.35, 25 lb. bag \$1.45, 10 lb. carton 80c, 5 lb. carton 50c. Victory Garden Fertilizer, like Vigoro, is a complete plant food. Place your orders early as we have good stocks ready for prompt shipment.
